Concessions:

You may choose one of three options for your sport concession stand:

1. None(You do not need concession money or the crowd is too small)
2. Fund, stock, work a separate concession stand with your team parents, not using Booster supplies. Coach (Team) puts up all seed money and team retains all the profits. If your sport does not have large crowds, this is a good option only if you have a team parent willing to coordinate this entire effort.
3. Have Boosters fund, stock, and assist in working with your team parents to provide a hot/cold food concession stand. In this scenario, the finances work as follows:

From the season totals:

50% for cost of goods

25% goes to Boosters who provide starting cash, coordinates all the goods purchased, provides 1 -2 people at each event to oversee opening, closing, working, full use of Booster equipment, liability insurance

25% goes to the team at the end of the season. Typically, if a team requests a grant from Boosters for any needs later in the season, some, most or even all of the money may come back to the team. Booster will sponsor tournament fees, equipment, bus fees, and scholarships; however Booster will not pay for uniforms or salaries.

Example:

\$4000 from sales during a season of concessions stand work

\$2000 cost of goods

\$1000 to El Molino Boosters

\$1000 to team

To request financial help from the Boosters, go to the Website and download a 'Grant Request Form', or find one in the Booster Mail Box.
